Sheep Killed—Party Made Trip to Top of Mt. Washington.

Ingalls McAllister and family of Oxford are at home to do the haying on their place, here.

Leon Kimball is at work haying for Preston Flint.

Walter Canwell has a small flock of sheep, which run in the pasture near the house. Mr. Canwell gets them to the barn every night and puts them back in the morning. One night last week when they went after them one was missing.

After searching for it some time the remains of the sheep was found near the side of the road. The head and shoulders were left, but the hind quarters had been eaten by something, thought to be a bear. Evidently it was something as large to be able to hold so much mutton at one meal. Old Bruin is getting pretty bold as it was done in the daytime and very near the road that goes by Mr. Canwell's house.

Ezra Lebroke and Herman Holt have been haying on their farm on the hill this week.

Another Record!

a Million

SIX CYLINDER CHEVROLETS

on the road in less than eight months!

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—and already there are more than a million six-cylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its

beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer

of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to see and drive this car. For it gives you every advantage of a fine six-cylinder automobile—in the price range of the four and with economy of better than 20 miles to the gallon! Come in today!

You Get Dependability on the Belt Jobs, Too!

John Deere Farm Tractor

Now is the time when you want a dependable and economical tractor for your belt-work jobs.

Threshing, baling, grinding feed, shelling, filling silo, sawing wood, shredding—these are some of the important jobs that you'll do more economically with the John Deere.

With a John Deere on the power end of the belt you are assured of ample, smooth-running power to handle them all. No matter how sudden or how heavy the demand thrown upon it, the sensitive governor responds

instantly to the power load. There's no loss of power between the engine and the belt on the John Deere. Belt pulley is mounted on the crankshaft, where it delivers every available ounce of engine power to the belt. Belt pulley is on the right side of the tractor in plain view of the operator running in the right direction for a crossed belt.

Of simple, sturdy construction—with fewer wearing parts—the John Deere Tractor stands supreme for economical power at belt, drawbar, or power take-off.

SWEET SINGERS COMING WITH VAN ARNAM'S MINSTRELS

After all is said and done, what would a minstrel show be without "The Singing Party" this year Van Arnham's Minstrels are carrying soloists recognized in the minstrel world by every patron who has visited minstrel shows in the last decade.

These singers are real minstrel vocalists and have spent years with the two greatest minstrel organizations "Al. G. Fields" and "Neil O'Brien."

Many of the latest songs will be heard but the wonderful old time ballads of yester year have not been forgotten. Van Arnham's Minstrels will appear at the Association Hall, South Paris, Tuesday, Aug. 20th. Seats are now on sale at Howard's Drug Store.

The Norway "Rattlers" battled Locke's Mills in a game of baseball last week. Several of the rattlers' "stars" were unable to play and a few "green" men were drafted into service to fill the open spaces. Among these were one "Cappy" Tex "Richard" Smith. Sad to relate, it was due to his many laughable, although serious, errors, that the "Rattlers" lost the hard fought game by one lone run. Final score 11-10.

"Cappy" is the new manager and entered the game without practice as a substitute.
